

Men's Liberty™ Instructions for Use

Nurse Support Line: (888) 920-9363
Hours: Mon-Fri, 9:00am-5:00pm EST

Follow these steps for proper application:

Review Contents

- Familiarize yourself with the products to the right and review the application instructions (see reverse side) before applying.
- Make sure you have a non-moisturizing bar soap like Ivory or Gold Dial at home - do not use liquid soap.

- Consider using a KindKlamp™ if you think you may experience leaking during application, you are uncircumcised or have retraction.

Call (800) 814-3174 x2 to place an order.

- Watch the application instruction video at mensliberty.com

Don't Run Out!

Call your distributor to place a re-order when you have 10 units or less.

Preparation

BioPlus™ Prep Wipe

Optional Leak Prevention

KindKlamp Penile Clamp

Application

Removal

FreeDerm™ Adhesive Remover

One size fits most incontinence patients

We recommend you change the Men's Liberty once a day. Do not wear for more than 48 hours without applying a new unit.

Some men prefer to wear a leg strap, leg band or boxer briefs over the bag to help secure it to their leg.

Using Men's Liberty with a diaper or other absorbent products may increase your risk of skin irritation or infection. If redness or irritation occurs, discontinue use and consult your healthcare professional.

Any serious incident while using the device should be reported to the manufacturer and competent authority.

Contraindications:

Absolute (When the product should not be used at all)

- Demonstrated sensitivity to hydrocolloid (rare)
- Anatomic abnormality (severe acquired hypospadias, urethral fistula, penile shaft erosions)
- Cannot retract foreskin to expose head

Relative (When the product can be used after healing)

- Unhealed wound at application site (wait to heal)
- Active rash at application site (wait to heal)
- Active inflammation or infection of the glans, prepuce or urethra (wait to heal)
- Purulent or bloody urethral discharge (wait to heal)

Your First Few Days As a result of using diapers or condom catheters, your skin may have a lot of moisture. Men's Liberty will soak up extra moisture until your skin returns to a normal balance. It can take up to three consecutive applications for you to get a full 24-hour wear time. Always reapply another Men's Liberty right away if one falls off. We suggest that first time users stay home the first 24 hours to ensure that Men's Liberty is applied correctly and no leaks occur. It may take up to a full week of wear-time until you are comfortable wearing Men's Liberty.

Nurse Support Line: (888) 920-9363

Hours: Mon-Fri, 9:00am-5:00pm EST

1. Wash & Dry

Begin by washing the head of the penis with a non-moisturizing bar soap like Ivory® or Gold Dial®. Dry thoroughly with a cotton or paper towel. Use a Kind Klamp to prevent leaking during washing if necessary. **Make sure to dry the area thoroughly.**

2. Wipe & Dry

Wipe the head of the penis with BioPlus+™ wipe. Allow 30 seconds to 1 minute for the area to dry completely. Ensure the skin is dry all around and no longer tacky.

3. Positioning & Application

Position Men's Liberty so that the vent is facing up. Align the center opening of the circular tube and petals with your urinary opening (meatus). Remove release papers around the petals and attach the faceplate to the tip of the penis with the center opening directly in line with the urinary opening. Smooth down petals.

4. Secure & Seal

Position the faceplate strip under the tip of the penis and center in the middle. Remove the adhesive backing and ensure the edge is over both the end of the clear circular tube and the tip of the penis. Wrap the strip around each side, making sure it is flat and wrinkle free. Use your fingers to push the ridges and grooves so there are no air pockets. Press and hold for 10-15 seconds to secure the seal.

5. Removal

Men's Liberty can be removed by soaking the seal with warm water or a wet washcloth until it is milky white and rolls gently from the skin. FreeDerm™ is recommended to remove Men's Liberty. **TO USE:** Spray the edge of the adhesive, lifting gently from the skin as you go. Continue to spray under the adhesive until completely removed. **Never pull or tear from the skin.**

Product is not reusable and could cause product malfunction or risk of infection if reused. Once removed, dispose of in a trash can.

If you have any questions, call the Nurse Support Line and we will walk you through each step of your first application. (888) 920-9363

For Overnight Use Unplug the bottom of the Men's Liberty collection pouch and connect your bedside bag. Hang the bed bag from your bed frame. Keep below the bladder or bed to ensure drainage. Do not twist or kink the tube.

Extra Capacity If you are excessively emptying the collection pouch each day, consider trying a leg bag for extra capacity. Visit www.MensLiberty.com or call 1-800-814-3174 x2 to order
