

Post-Operative Care with Men's Liberty™ Male External Catheter

As part of your recovery process, it will be important for you to keep urine away from your skin, to remain dry and reduce your risk of urinary tract infections (UTIs). Your healthcare provider has suggested Men's Liberty as part of your post-operative care.

Men's Liberty is the first truly innovative device for men's urinary incontinence that keeps men dry 24/7. It features a completely external design, a skin friendly hydrocolloid adhesive and a secure seal for up to 24 hours. To date, more than 5 million have been used. Men's Liberty is the discreet, dignified and dependable option for managing urinary incontinence.

Simply take the prescription to your favorite pharmacy to fill the order.

- Skin Friendly** – hypoallergenic & not made with natural rubber latex
- Easy Application** – applies to the glans, occlusive seal
- Gentle Hydrocolloid** – soft stretchy material conforms to anatomy
- Stay Dry Design** – urine moves away from anatomy into pouch
- Reduces Out-of-Pocket Cost** – covered by over 3,000 insurance plans (standard deductibles and co-pays apply)
- Minimizes Leaks & Odor** – associated with diapers and condom catheters
